 Care of Our
 Community

It's good public policy!

Sign the Petition to Roseburg Mayor & City Council at
 Change.org:
Open Public Bathrooms

From the Centers for Disease Control & Prevention:

Water-related Diseases and Contaminants in Public Water Systems

The presence of contaminants in water can lead to adverse health effects, including gastrointestinal illness, reproductive problems, and neurological disorders. Infants, young children, pregnant women, the elderly, and people whose immune systems are compromised because of AIDS, chemotherapy, or transplant medications, may be especially susceptible to illness from some contaminants.
